Dear Sir:

Responding to yours of October 7th. It is just possible that you might be able to secure a copy of Adam's "Private Gold Coinage of California" from the author - 'I am unable to say whether the edition has been exhausted or not.

As an alternative, we can offer you the eight numbers of the American Journal in which this originally appeared, unbound at a cost of \$4.00 plus postage. If you desire it in this form, I should be glad to have your order.

Very truly yours,

SN:JG
